Applicant: Frank Basta, 60385 Frankfurt,  
Germany

The following details were derived from the documents submitted by the applicant

#### Description

"ROLL & CLEAN" (variant 4) is the first toilet paper on a roll worldwide that can be used moist or dry for hygiene, according to choice.

With ROLL & CLEAN you no longer need inconvenient containers with moist paper towels, but only the ROLL & CLEAN special box suspended or mounted on the wall, which scarcely differs from the ordinary toilet paper roll during its simple use. Thus, you are now able to conveniently choose between dry and moist hygiene with one movement.

During dry use you simply pull the ROLL & CLEAN toilet paper out of the box, like normal toilet paper.

If you now want to take advantage of moist toilet paper, you need merely push the ROLL & CLEAN liquid container downward and pull the moistened toilet paper out and separate it. As soon as the ROLL & CLEAN liquid container is released, it moves back to its initial position. The liquid is then automatically sealed off airtight.

In comparison, moist paper towels from a box dry out after a certain time, since the usual containers are opened during each use and air enters because of this. Possible bacterial contact is also avoided with the ROLL & CLEAN, since it is no longer necessary to grasp the container.

With ROLL & CLEAN you simply and cleanly pull out precisely the amount of moist toilet paper that you need for your hygienic cleaning.

The ROLL & CLEAN special box is available in a variety of variations, forms, colors and patterns. Only the dual function of ROLL & CLEAN always remains the same.

The ROLL & CLEAN toilet paper roll and the liquid for the ROLL & CLEAN liquid container can be simply repurchased after use.

ROLL & CLEAN ... for perfect hygiene.

List of reference numbers

- I Box
- II Toilet paper
- III Suspension
- IV Rails for the liquid container
- V Roller for moistening of the paper
- VI Liquid container
- VII Liquid (dermatologically tested, alcohol-free)
- VIII Tear-off sites
- IX Sliding roller for the moistened toilet paper

### Claim

Toilet paper that can be used wet and dry according to choice, characterized by the fact that a special box with a liquid container gives you the possibility of choosing between moist and dry toilet paper as required.
